## Senator Demanding FDR's Resignation

### FEARS FOREIGN POLICIES WILL BRING DISASTER

#### Chief Executive At Hyde Park Charges Partisanship

Washington, June 21.—(AP)—A demand that President Roosevelt resign lest his foreign policies bring "disaster" upon the country was made in the Senate today by Senator Nye (R-MD), while at Hyde Park the chief executive accused his critics of partisanship.

Nye, an advocate of aloofness from European affairs, also urged that Harry Woodring, resigned secretary of war, be called before the Senate military committee for questioning. He said he would be "very much surprised" if the committee did not learn that Woodring had been asked to transfer "national defense secret Number 1"—a bomber sight-to the Allies, and that he had been ousted because he refused.

This brought from Senator Barkley (D-KY) the reply that Major General Henry H. Arnold had assured him that "at no time or under any conditions has any consideration been given to revelation of any secret bomber sight."

"War Cabinet"

At Hyde Park the president took cognizance of charges that he was creating a "war cabinet" in appointing Henry L. Stimson to succeed Woodring and Col. Frank Knox, like Stimson, a Republican, to the War Department.

Knox asserted at Chicago that the country was in danger "because we are inadequately prepared" and that his only aim was to help "get ready for any emergency—in a non-political way."

The Senate military committee will hold a hearing on Stimson's nomination in a few days, with Stimson as a witness, while the naval committee will start considering Knox's nomination tomorrow.

Meanwhile, Chairman Walsh (D-Mass.) of the Senate naval committee, in a vehement speech in the Senate, asserted that he would "walk out of the chamber" rather than vote to enter any European war. It was all right, he asserted, for private American companies to aid the Allies but "I want our own army and navy to keep clear of this European war."

"Have we lost the concept of the awful, awful consequences of war on America?" he cried. "Are the mothers who would have to send their sons demanding that we go to war? Where does the demand come from? It comes from a limited number of men of property."

Senator Pepper (D-Pa.) declared he knew of no one in the Senate who wanted to take this country to war but he assailed the "outward military tradition that the only way to defend yourself is to wait until the other fellow hits you."

France, he said, waited "behind a supposedly impregnable system of defenses" and today "the French republic lies prostrate in process of being reabsorbed by the dictator who is a theme in the very Christian and true Democrat."

During the Senate discussion Senator Vandenberg (R-Mich.) asserted (Continued on Page Four)

## Dewey Assails Leadership Of U.S. As False

New York, June 21.—(AP)—Thomas E. Dewey declared tonight that President Roosevelt "can not be trusted with the destiny of America in the years immediately ahead of us," and that "Franklin D. Roosevelt must go."

In an address prepared for a national broadcast over CBS 8:30 CST—the "clean-up" address of his campaign for the Republican nomination—Dewey asserted that "as long as Franklin D. Roosevelt is president this country will not have a sound government."

"Stifling Defeatism"

Mr. Roosevelt "has let America down," he said. "With new leadership we can bring new hope to the United States. We can revitalize our nation. We can again bring men into our government. We can sweep away the stifling influence of defeatism in the nation's capital."

Dewey assailed the Roosevelt cabinet as a "bench for messenger boys." He said, too, he thought that "for too long we have pointed to the errors of such impersonal things as 'the administration,' 'the inner-circle,' 'the clique that surrounds the president.'"

Dewey contended that Mr. Roosevelt alone was responsible for the policies of the last seven years.

"The man who is alone responsible for our present predicament is the man who is alone responsible for our future."

Franklin D. Roosevelt, he said, "is the one reason why Franklin D. Roosevelt must go."

## FRENCH ARMIES OF ALPS, JURAS CLAIM SUCCESS

### Holding And Driving Back German Units On Wheels

At the French-Swiss frontier, June 21.—(AP)—The French armies of the Alps and the Juras fought today the heaviest of armistice talks to hold and even drive back the Germans who have backed them into their mountain defenses.

They fought side by side with units which managed to escape from the useless, surrounded, Maginot line.

Nazis Back Up

Reports reaching this frontier said German motorized units south and east of Lyon, driving toward the Italian border, were forced to stop and wait for reinforcements. At points northwest of Grenoble, advanced Nazi columns had to back up.

Their losses were described as heavy.

On the Italian side of the border there was little sign of any action, although the Italians had been expected to start an offensive to squeeze the French southeastern armies as soon as the Germans got to the Rhine valley.

Capture of two uncompleted 35,000 ton French battleships at Brest was announced by the Berlin newspaper, Angriff. They are the Clemenceau and the Richelieu.

**Smedley D. Butler Dies In Penn City**

Philadelphia, June 21.—(AP)—Major General Smedley D. Butler, 58, who retired from the U. S. Marine Corps after fighting half-way round the world and spent much of his later years urging that the nation keep its fighting men home, died today in naval hospital.

## REPUBLICANS STUDY PROBLEM OF ALLIED HELP

### Peace, Preparedness Is Slogan Favored By Platform Writers

Philadelphia, June 21.—(AP)—The slogan "Peace and Preparedness" dominated Republican platform writers today, with a controversy obviously arising as to how far the party declaration should go in endorsing material assistance to the Allies.

Subcommittees, appointed to deal with the various platform subjects met throughout the day, including the group under the chairmanship of Alf M. Landon which is studying the problem of foreign affairs. It, Landon said, discussed the thorny question committed to it at length and would meet again tomorrow.

From the other subcommittees came word that the platform otherwise would closely conform to the program submitted last winter by the Republican program committee under the chairmanship of Glenn Frank.

Two Platforms

Meanwhile, it was learned that some party leaders were urging that the convention adopt two platforms, one brief, concise and pointed, and the other elaborating at some length on the points made in the shorter document.

Landon made it plain that because of the uncertainty of the situation abroad, he and the subcommittee were in no hurry to put their views into writing.

Candidates, speculation upon the number of ballots it would take to reach a decision, and the appointment of Col. Frank Knox and Frank L. Stimson to the Roosevelt cabinet continued to dominate discussions in the fast-rathering convention crowd.

From the headquarters of several candidates came predictions that the convention would vote many times before any one man obtains the necessary majority. Joseph M. Dew, a leading Pennsylvania Republican, who is supporting Governor Arthur H. James of the host state, forecast the possibility of 200 ballots. He also pledged Pennsylvania's delegation—second largest in the convention—would stick with James and "there is no second choice."

## Voting Majority Of State Republicans Heads For Conclave

### C. Wayland Brooks Is Forced To Delay Due To Throat Trouble

Chicago, June 21.—(AP)—A voting majority of the Illinois delegation to the Republican national convention at Philadelphia left by special train for Pennsylvania this morning.

There were more than 100 members in the party, but it did not include C. Wayland Brooks, the party's nominee for the United States senate who was forced to remain behind because of a throat infection that developed from a tooth extraction. Brooks hoped, however, to get away by plane tomorrow to join his fellow delegates before the convention gets underway. He is one of the state's delegates-at-large.

Mr. Mabel Reinecke

Among the delegates-at-large was Mrs. Mabel Reinecke of Chicago who took the place of Col. Frank Knox of Chicago. Col. Knox resigned as a delegate following his selection by President Roosevelt as secretary of the navy.

Another delegate at large, former Senator Otis P. Glenn, cancelled his reservation at the last minute, explaining he felt he had not recovered sufficiently from a recent illness. Congressman Everett M. Dirksen of Pekin was designated to take his place.

Werner W. Schroeder of Chicago, candidate for national committeeman accompanied the delegation. A movement to unseat National Committeeman Hill Blackett has developed and the Illinois delegation will caucus on the question at Philadelphia Sunday night. Blackett boosters are scheduled to leave Chicago for Philadelphia tomorrow.

A group of candidates for state office was in today's vanguard. Among them was Justice L. Johnson, of Aurora, nominee for secretary of state. Arthur C. Lueder, candidate for state auditor, Warren E. Wright, for state treasurer, George F. Barrett, who is seeking the attorney generalship, and William G. Stratton, candidate for congressman at large.

More than 95 per cent of the drivers in fatal automobile accidents during 1939 were men.

## Guard Bridges On East River After Warning

New York, June 21.—(AP)—Two hundred patrolmen and detectives were placed on guard over the Brooklyn and Manhattan bridges over the East river tonight as a result of two anonymous telephone warnings that the structures were to be bombed.

Police were inclined to treat the first warning, received at Bronx headquarters as the work of a crank. However, the guard was ordered after a second man, characterized by police as "very serious and very intelligent," called Brooklyn headquarters to say: "I know that bombs are going to be placed x x x on the bridges tonight. I have nothing to do with it, but I know it is going to happen."

At the same time, following the twin bombings yesterday in buildings housing the German consulate and offices of Communist units, police doubled the guards at consulates, steamship piers and foreign language newspapers. The guard was placed on a 24-hour basis, instead of the previous 16-hour coverage.

The investigation of the bombings centered on a study of fragments of the internal machines.

## INDICATE JAPAN CLOSER NOW TO ITALY, GERMANY

### Negative Attitude Is To Be Rule Toward United States

Tokyo, June 22.—(Saturday)—(AP)—Circles close to the government indicated today Japan's policies now are crystallized around a program calling for closer relations with Germany and Italy, possibly direct action in British-French possessions in the southern Orient and a negative attitude toward any American efforts toward rapprochement.

Brigadier, British crown colony, and French Indo-China are the chief possessions of the allies in the southern Orient.

Japan-U. S. Trade

Japan and the United States have been without formal trade relations since last January 26 when Washington denounced their 29-year-old commercial treaty. The action placed commercial relations between the two countries on a day-to-day basis, although customs duties remained unchanged.

New York, June 21.—(AP)—The official Moscow radio in a shortwave broadcast heard here tonight by NBC reported large Japanese troop concentrations on the island of Hainan and said this indicated an impending Japanese offensive against French Indo-China. The broadcast was in English.

## Senate Nullifies Veto By Roosevelt

Washington, June 21.—(AP)—The senate enacted into law today, over President Roosevelt's veto, legislation requiring the government to help pay the cost of alterations it orders in bridges found to be obstructing navigation.

The house previously had overridden the veto and the senate vote was 55 to 17, more than the required two-thirds needed to nullify the veto.

President Roosevelt protested in a veto message June 10 that the legislation would establish a precedent that might prove costly to the government inasmuch as the supreme court had ruled that such change in bridges over navigable streams must be made at the expense of the bridge owners.

## Oxygen Flask For War Fliers

Seattle, June 21.—(AP)—A pocket oxygen flask to save war fliers from almost certain death when they parachute from 25,000 feet was announced to the American Association for the Advancement of Science here today.

It is a device to meet the high flying conditions which the war has brought. It was developed at the Mayo clinic by Dr. Walter M. Boothby, Dr. Randolph Lovelace and Capt. Otis O. Benson, U. S. A. Medical Corps.

A person parachuting from 25,000 feet or over is almost certain to die of lack of oxygen before he descends to living altitudes, the Mayo medical tests show.

A flier can't carry the present oxygen equipment or even part of it in emergency. The physicians estimated that by the time a man at 25,000 feet got to the door to jump he already would be faint from oxygen lack.

If he pulled the rip cord of his chute immediately, he probably would die in the 5 to 10 minutes needed to descend to good oxygen levels.

He could try to shorten this time by dropping with closed parachute for the first 3,000 feet. In that case, the medical tests showed, the man probably would be unconscious before it came time to pull the cord.

The flask is a small cylinder solid, 34 liters of oxygen, enough to last 10 to 15 minutes. In flight it is part of the plane's oxygen system. But it disconnects automatically when a flier leaves and goes along with him. It has a tube and mouth piece for breathing.

# Peace Terms Decision By French Not Yet Reached

## BOMBERS BLAST ENGLAND; SOUND BERLIN ALARM

### Most Of The French Fleet Taken Over By Great Britain

Washington, June 21.—(AP)—Authoritative sources said tonight that this government had been advised that the "bulk" of the French fleet had been taken over intact by Great Britain.

Also, it was reported, a large number of French planes had been flown to England as well as North Africa to get them out of the hands of the German army.

The information received here was that one battleship, thought to be the Jean Bart, which was to have been commissioned by the French next month, was taken from a French navy yard and towed to an English port.

London, June 22.—(Saturday)—(AP)—Wave upon wave of German bombers blasted at southern and eastern England with heavy demolition and incendiary bombs early today in the most violent attack so far of the battle of England.

Fires Started

Roaring across the coast for the third big attack of the week, the Nazis sent the early morning air with thunderous explosions and started numerous fires which cast a crimson glow over the countryside.

The British apparently replied in kind with a raid on Berlin, where an alarm was in effect for 38 minutes and anti-aircraft guns around the capital fired at invading craft. No bomb explosions were heard in Berlin.

The bark of anti-aircraft guns, the chatter of machine guns and the challenging wail of British fighter planes made an ear-splitting overture to the sound of the raiding planes and the intermittent thud of the exploding bombs.

Air raid alarms shrilled with the approach of the first attackers and the civilian population crouched in shelters while the battle raged on.

One salvo of high explosive bombs struck a lumber yard in an undisclosed eastern area, shattering windows in the immediate vicinity and shaking buildings as far as three miles away.

British Fighters

Reports from the attacked areas said that as soon as the ominous drone of the Nazi craft became audible, their motors were drowned out by speedy British fighters darting into the skies to the attack.

The Germans attacked one north-eastern locality in relays for more than two hours, dropping bombs.

In one area the bombs fell so wide of any mark they were believed to have been jetted by an enemy plane seeking to outrun the hot British pursuit.

Little British fighters climbed into the pre-dawn dark to meet the invaders in the air. The repeated drone (Continued on Page Four)

## King Carol Of Rumania Casts His Lot Squarely With Reich

### Begins Formation of New Party on Nazi Pattern; Nazi Iron Guard Will Play Big Part in The State Regime

Bucharest, Rumania, June 21.—(AP)—King Carol cast his lot squarely with Germany tonight.

He began formation of a new totalitarian party on the Nazi pattern and, it was reliably reported, drafted decrees to turn his country into a state of the Nazi-Fascist type.

Christian, Racial

This will supersede the present party of National Rebirth. Its bases will be "nationalistic, Christian, and racial."

The Nazi Iron Guard will play a big part in the new set-up. The Iron Guard organization long was banned and a vigorous attempt was made to wipe it out, but recently, "gentle" members have been pardoned.

Observers described the king's move as a desperate effort to make friends with the Reich and thus prevent possible partition of his country.

The decision followed several audiences within the past 24 hours with the German minister.

Some foreign observers said one result might be the seizing of British and French oil possessions in Rumania, but the oil holdings of the United States were expected to be let alone.

Anti-Semitism, an Iron Guard tenet, is expected to receive official sanction.

To Punish Officials

"Those officials responsible for killing Iron Guardists in recent years" will be punished, an announcement said. After Premier Armand Calinescu was assassinated last fall, a total of 320 Guardists were put to death.

Now there will be monuments for their graves; until today, even markers were forbidden.

## ECONOMIC PLAN CRITICS PLAYED BY PRESIDENT

### Termed "Crooked" By Executive; Part Of Defense Set-Up

Hyde Park, N.Y., June 21.—(AP)—President Roosevelt branded as crooked today some critics of a plan for a Pan-American economic organization—a plan which he disclosed as contemplating cooperative sales of approximately \$2,000,000,000 of American staple export commodities outside the western hemisphere.

Measures for Pan-American economic cooperation, he said in a formal statement, are part of a program of "economic defense" supplementing the military defense program.

"They are intended," he said, "as a further safeguard for the peace of this hemisphere and as a means of protecting our economy and the economies of the other American republics from the repercussions of the disturbed international situation."

Unfortunately, the president told reporters, some people are crooked enough to say the economic program means the importation into the United States of the entire Argentine beef surplus.

Actually, he said, it means the pooling of staple crops grown in common and setting them off this continent.

Details of the economic program now being submitted to the governments of the other American nations for approval, may not be announced until a Pan-American conference is held, the president said, possibly in Havana within the next few weeks.

Solons Decide On Week-long Recess

Washington, June 21.—(AP)—Congress tolled at a half-dozen last minute tasks tonight after leaders set midnight tomorrow as the deadline for beginning a week-long recess.

This lay-off, designed to enable Republicans to attend their national convention at Philadelphia, was decided upon as a compromise between administration lieutenants and a substantial bloc demanding that congress remain constantly in session to deal with defense and other questions born of the European crisis.

The senate and house gave quick final approval to the \$16,539,418 farm bill and sent it to President Roosevelt. The house approved a compromise \$137,711,357 relief appropriation.

A joint conference committee sought to adjust major senate house differences over defense tax legislation.

It, as is expected, congress recesses for the Republican convention, leaders plan to quit also for the week starting July 16, when the Democrats will be in session at Chicago.

## FUEHRER SAYS REPLY MUST BE UNCONDITIONAL

### Historic Railway Car Is Ordered Taken To Berlin

New York, June 21.—(AP)—The German radio, in an English-language broadcast heard here by NBC tonight, reported that French and German delegations which returned to the armistice railway car in Compiègne Forest for further discussions were still in session five hours later.

It said the French delegates had another long telephone conversation

with the Reich and thus prevent possible partition of his country.

The decision followed several audiences within the past 24 hours with the German minister.

Some foreign observers said one result might be the seizing of British and French oil possessions in Rumania, but the oil holdings of the United States were expected to be let alone.

Anti-Semitism, an Iron Guard tenet, is expected to receive official sanction.

To Punish Officials

"Those officials responsible for killing Iron Guardists in recent years" will be punished, an announcement said. After Premier Armand Calinescu was assassinated last fall, a total of 320 Guardists were put to death.

Now there will be monuments for their graves; until today, even markers were forbidden.

## JOHN L. LEWIS CONFRONTED BY POLICY REVOLT

### To Support A Third Term

Washington, June 21.—(AP)—John L. Lewis, who has declared opposition to a third term for President Roosevelt, was confronted today with dissatisfaction within labor's non-partisan league, CIO political wing, over his stand.

Eli L. Oliver resigned from the post of executive secretary of the league, which Lewis heads, and declared that the "overwhelming majority" of the members "prefer the renomination and reelection of President Roosevelt to the choice of any other person available in either major party."

Coincidentally, there were two other happenings in the capital that caught the attention of politicians.

Up on Capitol Hill, the senate campaign expenditures committee reported it had "abundant evidence" that Missouri state employees had been "indirectly coerced" into contributing to Gov. Lloyd C. Stark's campaign for the Democratic senatorial nomination.

Chairman Gillette (D-Iowa) said the committee's agents would continue their investigations in Missouri until after the senatorial primary in which Stark is campaigning against Senator Truman.

At Carthage, Mo., Gov. Stark took cognizance of the charges of coercion by saying that "I personally prohibited anything of the sort."

Postmaster General James A. Farley and Vice President Garner had a long conference and word circulated afterward they had discussed possibilities for the Democratic vice presidential nomination in the event President Roosevelt runs again.

Farley and Garner, both aspirants for the presidential nomination, were said by friends to have "canvassed the whole field of politics," including President Roosevelt's selection of two Republicans, Henry L. Stimson and Frank Knox, to be secretaries of war and navy, respectively.

Both men disapproved the appointments, one report said.

## DUCE'S SETTLEMENT

### Rofo, June 21.—(AP)—Mussolini's settlement with vanquished France hung in abeyance today while Hitler evaded old scores by naming his price for peace in the armistice.

In the absence of any announcement of further moves toward an Italy-French armistice, observers assumed the Italian dictator would wait until Hitler finished with the French before publicly revealing his demands.

Possibility that the French plenipotentiaries, at least, may already know them, was seen by some observers in an announcement that "decisions agreed upon by Hitler and Mussolini" in their Munich meeting had been communicated to the French.

Italy was not among the vanquished in the war of 1914-18 and therefore there is no Franco-Italian counterpart of the railway car in which Poch dictated terms to Hitler's predecessors.

Comments in the Fascist press indicated, however, that the terms would be dramatic in their severity if not in the manner of their presentation.

with their government at Bordeaux and that several more hours probably will pass before a final decision on the peace terms will be reached.

Compiègne Forest, France, June 21.—(AP)—A yes or no answer—unconditionally and now—was demanded of France tonight to the terms of a conqueror's peace dictated by Adolf Hitler in the hour of triumph.

The four emissaries who hold the fate of the French in that answer remained in steady telephone communication with their government. They conferred for a second time, too, tonight with the representatives of the German Fuehrer.

Car to Berlin

Meanwhile, Hitler ordered to Berlin the long-enslaved railway car where Germany signed an armistice in sorrow in 1918 and offered one in victory today.

Along with the historic car, Hitler will take away the memorial tablet that marked the spot, and the monument the French set up with the graven legend:

"Here on Nov. 11, 1918, was frustrated the criminal arrogance of the German imperial Reich, defeated by the free peoples which it sought to enslave."

Slabs marking where the train station were ordered destroyed.

Hitler personally decreed that the monument to Marshal Foch is to be preserved undamaged, unmoved.

He demanded an end to all resistance; that the French give him "all guarantees necessary" to him to continue his war against their ally Britain; and the acceptance of "preconditions" for a new European order designed above all to make "reparation of the wrong done to the German Reich by force."

Louis Freamont

This was the heart of a long preamble given to the French delegates—that and a declaration that Germany had no intention of casting "aspersions against an enemy so brave."

His specific terms—not announced in detail pending their acceptance or rejection—were left with the French in a meeting that was heavy with a sense of history, history repeating itself in reverse.

For he met the French in the railway car in the forest of Compiègne where on the morning of Nov. 11, 1918, the Germans—the vanquished then—signed the armistice that ended the World War.

The old car was pulled from the (Continued on Page Four)

## How The Money Goes

Americans who see items in the paper every day are apt to say that so many billions of dollars were appropriated by congress for this or that, all in the name of national defense, may get calloused to the meaning of the huge figures.

It must come home to all, however, when the treasury issues a summary showing that government expenditures for 1939 of the present fiscal year have already passed the nine billion dollar mark.

The fiscal year does not come to a close until July 1, hence there will be hundreds of millions added to the total at the year's close.

Expenses were \$3,621,617,245 greater than the income for the 1939 months. The public debt is now more than \$2 billion and still going up at a stupendous rate daily. These figures are not comprehended just now but later they will be.

## Still Use Street Cars

It is the general notion that the day of the street car has passed. It is true in many smaller or medium sized communities which formerly depended on street cars for public transportation, Jacksonville, for instance.

But some larger cities are discarding the old fashioned street cars only to adopt those of modern streamlined type, and glad of it.

In St. Louis the other day they had a great public gathering to "dedicate" a system of street cars of the newer type which are to replace the outmoded kind. A parade of the new street cars through the streets where they are to run hereafter, carried bands, banners and all the flubdubs of a great public festival.

St. Louisans seem proud of their new public conveyances.

## The Plot in Uruguay

It was clear at the outset that the United States did not send two cruisers to South American waters to collect tropical butterflies.

Exactly why they were sent becomes clear with the unmasking in Uruguay of a Nazi military plot to seize that country with the co-operation of "Fifth Column" elements in that country and trained German war veterans from neighboring Argentina. Twelve Nazi party leaders have been arrested and another avoided arrest only because shielded by being officially on the staff of the German legation. Machine-guns and arms were discovered, and elements of a widespread plot exposed.

Uruguay is to be congratulated on having acted promptly. The best way to halt these cancerous growths within American states is by major operations as soon as they are discovered.

This determination on the part of South American nations to protect themselves is the best hope of keeping the Americas clear of foreignisms. For the United States can scarcely be expected to protect countries which do not try to protect themselves from foreign influences.

## The Railroads Are Ready

One question frequently asked these days is: "Are the railroads ready?" And the answer is: "The railroads are ready to meet any emergency." A short time ago Assistant Secretary of War Johnson observed that the American railroads are "always in a state of national defense." There was no wishful thinking in that statement. It came from a full knowledge of the remarkable job the railroads have done, working in full co-operation with the government, to prepare against any demand that may conceivably be made upon them.

The railroads and the Army and Navy Munitions Board have worked for a number of years to make plans to meet emergencies as they may arise. These plans, to quote Secretary Johnson again, contemplate no change in the "American way of getting things done." They do not involve any emergency super-controls, or government operation. The essence of the plans is that the railroads shall be run in the regular way, with the various interested agencies of government co-operating.

In 1917 when government took over management of the railroads as a war measure, chaos resulted in the transportation structure. At one time there were as many as 200,000 cars standing loaded on side tracks because there had been no co-ordination in ordering goods shipped and the time when these goods could be used or unloaded. Under the present plan, that will not happen again. Freight will be ordered as needed and railroad cars will not be used for anything but emergency service.

Today the railroads have bigger and better cars, bigger and faster locomotives, far better tracks, terminals, etc., than ever before. As a railroad authority said recently: "The railroads repeatedly have handled more freight than they did in 1918 with fewer cars and engines than they had then and have done it without delay, congestion or difficulty. And so they will do again should emergency come."

CARL E. ROBINSON

EDWARD H. ALEXANDER

When the Republican National convention convenes next week, in Philadelphia, two Jacksonville men will be seated with the Illinois official delegation. They are Attorney Carl E. Robinson and Edward H. Alexander, who were elected delegates from the Twentieth District at the April primary of the party.

## M. G. Moore Leaves Milton and Takes Bluffs Position

## Becomes Superintendent Of Both High and Grade Schools at Bluffs

Bluffs.—M. G. Moore of Milton was employed as superintendent of the high and grade school here at a joint meeting of the two school boards this week.

Moore, formerly superintendent of Manchester and Alsey, went to Milton as superintendent and coach several years ago. He made an enviable record there in athletics and scholastics. He established the holiday tournament at Milton and one Moore coached team participated in the state basketball tournament. His application was made here, we understand, to get away from the duties of coaching and concentrate on administration affairs. The two boards were deliberate in making their selection from twenty-five applicants and final decision was withheld until members of both boards had contacted state high school authorities at the University of Illinois.

## Mark Anniversary In Greene County

## Amold Langer Observes 87th Birthday; Other News Of Carrollton

Carrollton, Ill., June 20.—A double anniversary celebration of a surprise nature was staged Sunday at the home of Mr. and Mrs. Bernard Thien. Amold Langer of Eldred, was 87 years of age Sunday, and Mr. and Mrs. George Kieper of Carrollton, son-in-law and daughter of Mr. Langer, were married 34 years ago on that day.

Forty-three guests, all of them relatives, attended the event, and all were seated to enjoy a real banquet. A musical, entertainment, talks and game program was carried out throughout the afternoon and at six o'clock supper ended the fête.

Members of Mt. Gilead Home Bureau met Wednesday afternoon at the home of Mr. Harry Combrink, gave the major lesson on "Selection of Floor Coverings."

Principal features of a program to be given Thursday evening in Greene County Farm Bureau hall, under the sponsorship of the Greene County Rural Youth League, will be a true or false quiz on etiquette. Program will be under the direction of Miss Jeanette Linder of Greenefield. After the quiz, the members will motor to White Hall, where a roller skating party at the rink will conclude the evening program.

William DeBolt and son Billy Jr., of Springfield, spent Sunday here at the home of the former's mother, Mrs. Saretta DeBolt.

Miss Elaine Anderson has been hired to teach the West Lincoln school here at the coming term at a salary of \$80 a month. J. Greer Burns, chairman Greene County Agricultural Conservation Association, Farm Adviser W. F. Purnell, John Price and Roy Short, motored to Belleville Tuesday and attended a school of instruction regarding the 1940 wheat crop federal loan.

Misses Bette Baldwin and Dorothy Hatchet of St. Louis, were week end guests of the former's mother, Mrs. Carmen Baldwin.

Miss Leavetta Crane and Billy Alfeld, representatives of the local Baptist Young People Union are spending this week in East Bay Camp at Bloomington, attending the Baptist summer assembly.

Mrs. Emily Giller and daughter Augusta visited Sunday at the home of Mr. and Mrs. Robert Coles in Greenfield.

## Seven Morgan County Young Men Apply For Enlistment In Navy

Seven young men from Jacksonville and surrounding communities made application Thursday for enlistment in the United States navy. The applications were made to Roy Hanson, chief machinist's mate, who spent the day at the Jacksonville post office as recruiting officer. During the last week in June the applicants will be given a medical examination. Those who pass this first test will be sent to Great Lakes Naval Training Station for a preliminary training period of ten weeks.

At the end of this period they will be assigned to ship or station service or to whatever trade school they may choose. Each youth is allowed to select a course of study, but if he makes no choice, he is assigned to a ship or one of the country's naval stations.

Maie Hanson stated that the young men who made application "are all likely boys and I hope they all pass." The list of applicants includes Paul Henry Vedder, RR. 4; Edward James Vaug in 1524 South Main street; Harlan Stanley Emerson, 523 West Walnut street; Paul Richard Mapes, 1238 South East street; Donald Eugene Loneran and Raymond Richard Gunterman, both of Woodson; and Robert Herschel Harp of Murrayville. Joseph George Ulrich of Staunton also came to the recruiting officer to make application during his stay at the post office.

## Wauwie Lee Ball And Jerseyville Man Are Married

## Becomes Bride of Ivan Heiderscheid Wednesday In Church Ceremony

Jerseyville.—A church ceremony solemnized at four-thirty o'clock Wednesday afternoon, June 19th, at the First Baptist church in Jerseyville, united in marriage Miss Wauwie Lee Ball and Ivan Heiderscheid, both of this city. The Reverend John A. Lampe, pastor of the Jerseyville Presbyterian church, performed the rites in the presence of a small gathering of relatives and friends of the couple.

A background of palms and ferns, interspersed with assorted flowers, was used for a setting in the church decorations. William B. Thatcher was organist for the occasion, playing the wedding marches and music during the ceremony. T. W. Kirby Jr., served as usher.

Miss Marguerite Redwine of Salem, Illinois, was bridesmaid for Miss Ball and Moore Stelle of Jerseyville served as best man for the groom.

Following the ceremony Mrs. T. W. Kirby, Jr., was hostess at an informal reception at her home on North State street for Mr. and Mrs. Heiderscheid and immediate relatives. The bride and groom left later for a short wedding trip after which they will be at home with Mr. Heiderscheid's mother, Mrs. Essie Heiderscheid on East Carpenter street.

The bride is the daughter of Mr. and Mrs. S. N. Ball of Salem, Mo., and is cashier for the American Sales Company of Jerseyville.

Heiderscheid is the son of Mrs. Essie Heiderscheid and is employed at Kirby's Drug in this city. He is Exalted Ruler of the Jerseyville Elks Lodge and active in district work of the organization.

## FIGURING AN I. Q.

A person's intelligence quotient (I. Q.) is figured by multiplying the mental age by 100 and dividing by the actual age. Thus, a normal person had an I. Q. of 100. Below 80 is considered subnormal, and a person of gifted mentality is denoted by a rating of more than 120.

### More Births Than Deaths in State, But Not in City

#### Report Given for First Four Months of 1940 Shows 5 Loss Here

Springfield, Ill., June 1.—(AP)—The number of babies born in Illinois during the first four months of this year was 222 greater than the total for the first third of 1939, the state department of public health reported today.

For the four months of 1940, the total number of births in the state was 26,669 against 26,407 for the comparable period last year.

Deaths decreased from 32,100 for the first four months of 1939 to 31,998 through April of this year. Infant mortality dropped from 45 to 41 and maternal mortality was lowered from 3.3 to 3.2 per 1,000 births for the first third of this year as compared with the similar period last year.

Heart disease remained the prime cause of death and increased from 10,137 for the first four months of last year to 10,289 for the 1940 period. The pneumonia death toll dropped sharply, from 2,378 to 1,854.

The City of Jacksonville did not fare so well as the rest of the state for the first four months of 1940 in the matter of births and deaths. In fact, measured by this standard only, the city lost five in population during the first third of the year.

For those months there were 78 deaths of local residents and only 73 resident births. These figures are for the city itself and do not include non-residents dying within the city or children born to non-residents at hospitals here.

**LEAVES HOSPITAL**  
Mrs. Frank Plouer has returned to her home after being a patient at Passavant hospital.

**RETURN TO MICHIGAN**

### Social Events

**Miss Hickie Guest of Honor at Luncheon**

Miss Mary Helen Melvin entertained at a luncheon in honor of Miss Barbara Hickie, whose approaching marriage to Eustace M. Brewster has been announced for June 29.

Following the luncheon games were played with the prize going to Miriam Cowgur. Miss Hickie received many lovely presents at a cleverly arranged shower.

The guests were Mary Butler, Miriam Cowgur, Ann Spink, Isabel Stoops, Doris Johnston, Barbara Hickie, of Jacksonville, and Kay Kellogg, of Champaign. Miss Melvin was a classmate of Miss Hickie at MacMurray college.

### RETURNS FROM OKLAHOMA

Mrs. Max Berry Ledford has returned to her home in this city after a pleasant stay of two and a half months with relatives in Oklahoma.

Part of the time was spent at the home of a nephew, Rev. W. T. Reynolds, and family in Pauls Valley, Okla. While there Mrs. Ledford had the rather unusual experience of being included in a movie film. Her nephew is pastor of the Presbyterian church in Pauls Valley, and views of the church, the pastor and members of his family were included in the film.

## Roosevelt, Horner Lauded In Platform By Illinois Demos

Senator Lucas to be Keynote  
Speaker For Convention  
At 12 a.m. Today

Springfield, Ill., June 21.—(AP)—Illinois Democratic leaders tonight were drafting a platform for the party's state convention tomorrow, urging a third term for President Roosevelt and praising Governor Horner's state administration.

Democratic chairman Arthur A. Sullivan forecast that the convention platform would endorse the president's program for rearmament and material aid to the allies.

Other Democratic leaders suggested that they might label themselves the "Preparedness Party" as an answer to the Republican "Peace Party" slogan. The Republicans at their convention last week referred to the Democrats as the party of "internationalism and war."

Senator Lucas will be the keynote speaker at the convention which opens at 11 a.m. (CST) tomorrow. The two other leading addresses will be delivered by Senator Slattery and Harry B. Hershhey, the party's nominee for governor.

special building in which the French had kept it proudly all these years to the precise spot where it stood on that morning of German defeat a generation ago.

Inside it, Hitler occupied the chair in which Marshal Ferdinand Foch sat then, the high commander of a French force that had won.

It was a ceremony full of a stiff punctilio, and when it was over the French plenipotentiaries walked slowly outside to a tent to telephone their government.

The negotiations dragged into this evening. After a preliminary consultation over the wire with their government, the French returned from their tent to the railway car to talk again to Hitler's agents.

Four Delegates

Hitler met the four French delegates at 3:30 P.M. (7:32 A.M. CST). He jerked his arm up in the Nazi salute, and his staff answered with arms extended. Then, at his signal, Colonel General Wilhelm Keitel, chief of the German high command, read the preamble—a general statement of the demands of Germany and Italy.

The French sat silently to hear the news—the gravest for their country in many a generation.

It was all over in 10 minutes. General Keitel completed his document and Hitler walked from the car while a band trumpeted "Deutschland Über Alles" and the Nazi hymn, the Horst Wessel song.

What Hitler's general had read to the French showed how sharp had been his memories of this forest and the railway car and what had come out of it half a life-time ago.

Calais Bombed

London, June 21.—(AP)—Bombers of the naval air force struck today at the positions in Calais of the big German guns with a range of 30 miles or more which point at this island across 22 miles of the English channel.

These "successful attacks," as the air ministry described them, were carried out at about the same time that Royal Air Force fighters dropped more than 400 incendiary bombs on the airdrome at Rouen, France, itself a German-occupied port on the Seine Estuary more than 150 miles down the channel from Calais.

It seemed probable that the British had begun an air offensive to blast out the heavy cannon which the Germans established along the channel after the allied retreat from Plandiers and which they might be expected to use in any attempted invasion of England.

## Fears Foreign Policies Will Bring Disaster

(Continued from Page One)

that Stimson, appointed secretary of war, had advocated a step which would be an "act of war"—the sending of supplies to the Allies under the convoy of U. S. naval ships. He asked that Stimson be questioned about his views.

The Senate debate shared attention with other developments bearing on defense, including an announcement that the naval academy at Annapolis was shortening its course of study, as it did during the World War, to provide additional officers for the navy.

The class of 1941 will be graduated Feb. 7, 1941, four months ahead of schedule.

The navy disclosed that a \$60,000,000 aircraft carrier, displacing 25,000 tons and capable of carrying 100 planes, would be built at the Norfolk, Va., navy yard.

Under terms of the measure enacted today, the secretary of war would determine the portion of the cost to be paid by the government.

## SEVEN PERSONS ARE KILLED BY LIGHTNING

Ocala, Fla., June 21.—(AP)—Seven persons were killed by lightning here today during a thunderstorm late here.

Deputy Sheriff A. L. Connell said the victims were gathering water-melons on a farm and sought shelter under a tree when the thunderstorm came up. The bolt of lightning struck the tree.

## Labor Union Books Are Being Audited

Chicago, June 21.—(AP)—The books and records of seven labor unions are being audited by the internal revenue department, it was disclosed at the federal building today.

Daniel J. Connelly, chief field deputy in the department's Chicago office, said 20 tax experts were going over the books to determine if there had been any violations of the income tax laws. If any are found, he said, the information would be turned over to the department's intelligence unit.

The bartenders, the retail clerks and building service employees unions were among those whose books are under scrutiny. It was indicated that the inquiry would be extended to include a dozen labor organizations.

## Legion Chief Urges Added Rearmament

St. Louis, June 21.—(AP)—Raymond J. Kelly of Detroit, national commander of the American Legion, today advocated a rearmament program four times as large as that proposed by the administration.

"We must be prepared to meet sacrifices and count no price too high for adequate army, navy and air force preparedness," he told a gathering of Legionnaires and civic groups.

Asserting that most Americans feel we should stay out of the European war, Kelly declared that "even if the nation wanted to intervene it is not prepared to do so," and added, "let us keep our mouths shut until we are ready to talk."

The Legion commander described the subversive activities of "millions of traitors within our country" as more dangerous, however, than the motorized columns of an open enemy and demanded they be stamped out by the severest laws.

RETAIL CLOTHIERS

Chicago, June 21.—(AP)—Harry Fletcher, Ft. Wayne, Ind., president of the National Association of Retail Clothiers and Furnishers, said today the association approves the fullest measure of support to the government's defense program.

He made this statement following a poll of board of directors throughout the nation. He suggested that those men's apparel stores which can possibly do so grant full pay allowance this summer to employees who may be called from work for federal or state training camp duty.

COUNTERFEIT TRIAL

Chicago, June 21.—(AP)—A federal court jury that was out 26 hours acquitted three Chicagoans today of charges that they possessed and passed \$5,000 worth of counterfeit bills. Those freed were Joseph Kassalis, Irving Cohen and Frank Schaefer.

Scientists say that the earth once was much smaller than it is now, and at another time was much larger than it is at the present time.

## Golfers At Country Club In Qualifying Tries For Tourney

Team And Champion Will  
Compete With Nichols  
Park Forces

Jacksonville Country Club golfers are rallying to meet the challenge of the Nichols Park forces with practice and qualifying rounds in anticipation of competition between the two groups sometime next month. The champions will also meet.

Over 40 have entered at the Country Club, with qualifying matches extending through Monday. "Stars" included on the list of players are Jim Buckley, college champion; Joe Doyle, Coach Claude Bensley of I. C.; and Willie Basher.

A golf association has been formed at the club carrying out week end tournaments. E. E. Lushbaugh is chairman of the committee which also includes John Doyle and Herman McGinnis.

All players are eligible to participate in a team match with Taylorville Sunday.

## St. Louis May Be In The Coal Business

St. Louis, June 21.—(AP)—As another step in the city's fight against smoke, the board of aldermen today passed a \$300,000 smokeless fuel marketing bill enabling the city to enter the coal business in an emergency.

The bill creates a revolving fund to be used for purchasing and distributing smokeless fuel "in the event retail dealers fail to offer the public a sufficient supply at reasonable prices."

Speedy approval of the measure, to bear the full marketing season—has been urged by Mayor Bernard Dickmann and the city smoke elimination committee.

Considerable opposition to the bill resulted from fear that retailers might suffer by competition from the city, but officials answered they "would try to carry on distribution through regular dealers."

"The city is not going to put the retailers out of business," one spokesman explained.

STRIKE SETTLED

St. Louis, June 21.—(AP)—A strike of union motion picture operators, which had closed three major theaters and 24 neighborhood houses, was settled today and all theaters will be reopened by tomorrow.

Fanchon & Marco, operators of the chain, agreed to dismiss two damage suits totaling \$275,000 after their refusal yesterday brought the strike call. The union made dismissal of the suits, which grew out of the picketing of three large theaters last winter, a condition of a new wage agreement.

SUICIDE

Peoria, Ill., June 21.—(AP)—Seizing a gun from behind a bar where he once worked as bartender, William Wetzberger, 34, shot himself to death today, Coroner Harold P. Dillon said. Wetzberger, unemployed for more than a year, was in the tavern two hours before he had an opportunity to snatch the pistol.

## SHRINE IN COMPIEGNE GIFT OF CALIFORNIAN

Pasadena, Calif., June 21.—(AP)—An artistic structure that houses the historic railway dining car in Compiègne where French and German high officials met today was the gift to the French government of Arthur H. Fleming, retired millionaire lumberman of this city.

While traveling in France a number of years ago, Fleming saw the car, in which French Marshal Foch handed the Germans the 1918 armistice terms, standing in the open, deteriorating.

He communicated with the French government and his offer of a \$10,000 structure to house the historic car was accepted. He later was decorated by France. The building is a one-story concrete shrine.

## Farmer Ready For Any Future Crisis

Chicago, June 21.—(AP)—The farmer is ready to meet "the challenge of today" with granaries and storehouses that are fuller than they have ever been in history, Edward A. O'Neal, president of the American Farm Bureau Federation, asserted today.

"It is precisely because agriculture has practiced an economy of abundance," he told the Executives Club, "that it is in shape today to meet any demand that the present emergency may place upon it."

"We have a year's supply of cotton on hand; we have two-thirds of a billion bushels of corn, more than double the normal supply for this date; we have 350,000,000 bushels of wheat, three times as much as we normally have on hand in June; we have a billion pounds of meat and well over 100,000,000 pounds of lard in storage."

## Three-State Quota For Army Is 3,646

Chicago, June 21.—(AP)—The war department has authorized the enlistment in the regular army of 3,646 additional men from Illinois, Michigan and Wisconsin. Lt. Gen. Stanley H. Ford, commander of the Sixth Corps area, disclosed today.

The campaign for enlistments, to be completed by August 31, followed closely on a June recruiting drive in which the sixth corps area reached its quota of 1,500 ten days in advance of the time fixed.

"Sixth corps area recruits," an announcement from the general's office said, "will have a wide choice in selecting the branches of the service in which they intend to make careers as well as the location of the post where they will serve."

"Most of the vacancies listed are in the far west. Many offer opportunities for highly specialized training, in some instances open to high school graduates only. Recruits wishing to remain closer to their homes while in the army will have their choices of Fort Sheridan, near Chicago; Sargeant Field, Mount Clemens, Mich.; Chanute Field, Illinois; or Scott Field, Belleville, Ill."

DR. ARTHUR CROSE

Ann Arbor, Mich., June 21.—(AP)—Dr. Arthur L. Crose, 67, professor of English history and a member of the University of Michigan faculty for 41 years, died today in University hospital. He had been ill for two weeks.

Dr. Crose was a member of the Royal Historical Society of London and of the American Historical Association.

NATIONAL LEAGUE

Philadelphia, June 21.—(AP)—The Phillies chalked up their third straight victory today beating the Chicago Cubs, 6 to 5, behind Ike Pearson's effective relief pitching.

Pearson replaced St. Johnson with two on and no one out in the seventh and yielded one hit in the last three innings. Lloyd Brown started for the Phils but gave way in the sixth.

The Phils scored four runs in the third on Chuck Klein's double and Merrill May's single to take a commanding lead. The winning run came in the sixth on Art Mahan's single and Herman Schutte's triple.

Giants 4, Reds 3

New York, June 21.—(AP)—The New York Giants solved Paul Derringer today to come from behind to beat the Cincinnati Reds 4 to 3 in a crucial contest that lifted the Giants to second place in the National league and dropped the champions to third.

Big Paul had won six straight games and today kept the Giants shutout on two hits for the first five innings. During this period the Reds collected all their runs and were steaming along placidly when the Giants broke Derringer's spell in the sixth.

With two out Babe Young and Hank Danning singled and Mel Ott smashed a double into the right field corner, scoring both. Then Bill Jurgens singled Ott home to tie the score.

The winning margin was an unearned run in the eighth when Frank McCormick dropped a throw to let Bob Seels reach first. Young sacrificed and after Danning struck out, Ott was purposely passed but Jurgens again singled the run across.

Harry Gumbert settled down after a rough start, pitching hitless ball for the last four frames and holding the Reds to six altogether.

Dodgers 10, Pirates 8

Brooklyn, June 21.—(AP)—The rough and ready Brooklyn Dodgers plastered a 10 to 8 defeat on the Pittsburgh Pirates in a "batting practice" game today and tightened their grip on the National league lead.

The Dodgers amassed 15 hits to Pittsburgh's 11 and used three pitchers to the Pirates' four.

It was the sixth victory against one defeat for Fred Fitzsimmons, although he failed to finish.

Ellamae Williams  
State Golf Champ

Aurora, Ill., June 21.—(AP)—Ellamae Williams, 23-year-old daughter of a Chicago pro, captured her second successive women's state golf championship today with a 7 and 6 victory over Eleanor Dudley of Chicago in the tournament final.

Miss Dudley, longest driver in the meet who won the medal with a record-breaking 76, was erratic off the tee, falling behind at the very start of the title engagement.

Miss Williams, who won her first state title at Peoria a year ago, took three of the first six holes and led all the way. Shooting a 39 on the first nine, the defending champion took a two-hole lead and doubled this margin on the next nine holes, going to lunch with a four-up edge.

Crisp iron play and steady putting enabled Miss Williams to breeze along without undue exertion in the afternoon.

Brooklyn Dodgers  
Claim Lou Fette

Brooklyn, June 21.—(AP)—The Brooklyn Dodgers announced tonight they had claimed Pitcher Lou Fette from the Boston Bees for the waiver price of \$7,500.

Fette has had arm trouble this year and lost five games while winning none, but in 1937 he created something of a sensation by coming out of the American Association to win 20 games for Boston in the National League.

Fette's acquisition brought Brooklyn one above the player limit. Secretary John McDonald said one of the Dodgers' present cast would be let go before Fette dons a uniform.

Harvard's Crew Is  
Victor Over Yale

New London, Conn., June 21.—(AP)—The Harvard fleet completed its third consecutive clean sweep of the historic Thames river regatta tonight when its sturdy varsity eight defeated Yale's by about eight lengths.

While outrowing the Elis for the fifth straight year, the Crimson varsity followed the examples set by its freshman and junior-varsity eights by pumping into the lead as it left its stake boat and pulling away from the Yale shell with almost every sweep of its oars as it tore down the four mile course.

Harvard's margins were two lengths at the mile, three at the halfway mark and six lengths of open water separated the shells at the three mile mark.

AMERICAN LEAGUE

Cleveland, June 21.—(AP)—Roy (Beau) Bell produced a dramatic three-run home in the eighth today to give Cleveland a 7 to 4 comeback triumph over Boston and cement the Indians' hold on first place.

Bell's eighth-inning circuit blow broke up a 4-4 tie, overcame two Boston homers and provided the Indians' sixth straight victory. It was the tenth triumph of the season for Southpaw Al Milnar, who was touched for ten hits, and the first setback in five decisions for Boston's Jack Wilson. Milnar has been defeated only twice.

The Red Sox grabbed a three-run lead in the third inning when youthful Ted Williams hit a homer with the sacks occupied by Wilson and Lou Pinney. The Indians tied it

## Hogs Advance With Cattle Mart Steady

Chicago, June 21.—(P)—Hog prices swung upward today after narrowly missing a new low yesterday. Trade was active with prices generally 5 to 15 cents higher. The top was \$5.35. Cattle were generally steady to strong. Lamb trade was active and steady.

A moderate supply of hog receipts was the chief factor contributing to the rise in prices. Strong weight butchers were steady to strong. Shipments of 2,000 and hinders amounted to 500. The price for pork loin has steadily remained at 613 per hundredweight since June 12.

All killing classes of cattle were strong with instances higher. A very limited supply of beef cattle was present in the market. \$10.40 top was paid for two loads of fed steers scaling 1197 pounds. All grades of steers were measurably higher than a week ago. Stock cattle were down, but firmer, with medium kind going to killers at week's 25 cents advance.

Idaho spring lambs were traded at \$10.50.

## WHEAT GAINS SOME; TRADING IS QUIET

Chicago, June 21.—(P)—Wheat prices advanced fractionally in a quiet trade today as dealers awaited developments in Europe, including armistice terms forced upon France, for a cue to future market activity.

Less favorable crop reports, including receipt of wheat samplings from southeastern Indiana bearing heavy infestation of black stem rust, senty traders to strict attention. Some recent improvement in private flour demand also was reported and additional government flour purchases are expected during the week-end.

Receipts were: wheat 21 cars, corn 303; oats 8.

Price gains were small and were wiped out frequently. Closing wheat figures were unchanged to a higher compared with yesterday, July 78-1, September 78-1, corn 4-1 up, July 62-1, September 60; oats unchanged to 1 higher.

## New York Stock Market

New York, June 21.—(P)—Stock market dealings almost came to a halt today, and prices shifted narrowly, as many traders remained inactive pending publication of the German-French armistice details.

Apathy, prevailing at the start, continued during the remainder of the session and transfers, for the five hours, approximated 300,000 shares, one of the smallest aggregates in nearly a year. Gains and losses of fractions were pretty evenly split at the close.

Speculative contingents seemed confused over the domestic political scene. The step of the president in nominating two Republican chiefs to his cabinet as a move toward a coalition government held much of the attention in boardrooms.

Business news still was fairly encouraging, but even here doubts began to appear regarding ultimate repercussions from European war upsets.

Steels were aided by another boost in the scrap metal.

Resistant were U. S. Steel, Bethlehem, Chrysler, General Motors, Douglas Aircraft, United Aircraft, Glenn Martin, Allied Chemical, Consolidated Edison, Johns-Manville, Eastman Kodak, Brooklyn-Manhattan Transit, Santa Fe and N. Y. Central.

Rail loans were the best in a listless bond department. Major commodities were relatively steady. Wheat at Chicago was unchanged to up 1/4 of a cent, a bushel and corn gained 1/4 in late transactions cotton was unchanged to up 45 cents a bale. "Free" sterling advanced in terms of the dollar.

STORIES IN STAMPS

U. S. Railroad Stamps Lag Behind Modern Era

PHILATELICALLY, American railroads still are in the pre-World War period. Last of U. S. postal releases picturing a railroad train was the 3-cent parcel post stamp above, issued in 1912. Streamlined trains have entered collectors' albums by recent issues of Italy, Rumania, Netherlands, Manchukuo, and others. The first train pictured on a U. S. stamp was the old-fashioned wood-burner on the 3-cent value of 1869. The type of locomotive used for the stamp design was older than that in general use in 1869. The 2-cent Pan-American issue of 1901 shows an up-to-date eight-wheeler of the Empire State Express. A train of this type set a speed record of 112 miles an hour in 1893. A train also is pictured on the 1916 Centennial stamped envelope, in a design incorporating a Pony Express rider.

## Mark Anniversary Of Founding Date Of Lutheran Church

St. Paul's Evangelical Lutheran Church Is 90 Years Old

Chapin, June 21.—Last Sunday was a joyous day in the annals of Saint Paul's Evangelical Lutheran church at Chapin. On that day the people of the congregation celebrated the 90th anniversary of the founding of their congregation and also celebrated their annual mission festival.

The sermon in the morning service was preached by Prof. C. W. Spiegel of Springfield, Ill. In the afternoon service, Rev. Paul Leischner of Pleasant Plains, Ill., preached a mission sermon. The sermon in the evening was delivered by Rev. Alfred Doerflinger of St. Louis, Mo.

In the year 1850 about 30 Lutherans who had settled in this vicinity, formed an Evangelical Lutheran congregation. By subscription the necessary funds for the erection of a house of God were secured and the members soon were the proud and happy possessors of a neat little church. Mr. Bernhard Brockhaus, a member of the congregation, had donated a piece of ground on which the church and other buildings which, in the course of time would be needed, were to be built.

The next thing now was to secure a pastor. After casting around, the members heard of a minister who had charge of St. Peter's Lutheran church at Arenzville. This was the Rev. Mr. Reiss, Sept. 1 several members went to hear Rev. Reiss, who on that day preached his inaugural address and after the service asked him to serve their congregation also. Rev. Reiss readily consented to do this. He faithfully served this congregation until March 1860, nine and one half years.

The first resident pastor was the Rev. Klockmeier. His successor was Rev. Kornbaum who served until September, 1862. Then followed the Rev. Klein, who served his congregation three years. In 1865, the Rev. Fieser became pastor, who two years later was succeeded by the Rev. Rueler, who served until 1870. St. Paul's then called the Rev. F. H. Warnke as its pastor, who accepted this call, faithfully and successfully ministered to the spiritual needs of the souls entrusted to his care until February 6, 1881, when the good Shepherd and Bishop of his church called this faithful servant to his promised reward.

In 1881, the Rev. J. H. Haake was installed as pastor. After having served his congregation faithfully for ten years, Rev. Haake, accepted a call to Elk Grove, Ill. The Rev. Edward Tappenbeck, now became the leader of this congregation; he was installed in August, 1891 and faithfully served until August, 1906, when he accepted a call to Olmstead, Ill.

The Rev. J. H. P. Sieving was then called. He was installed at St. Paul's in September, 1906, and faithfully and successfully served his congregation for 32 years. In April, 1939, he retired from his duties as pastor because of ill health and preached his farewell sermon April 30. A call was then extended to candidate Herbert W. Hallerberg who accepted the call and was ordained and installed May 28, 1939 and is now serving the congregation as its pastor.

From its beginning this congregation flourished. The word of God was not proclaimed in vain. Not only people living in the immediate vicinity came to the church, but many from Scott county came to satisfy their hungry souls with the bread of life. The congregation, therefore soon outgrew its place of worship, and so decided to build a new and larger church which was completed in the year 1886 and dedicated to the service of God, May 27, 1886.

In 1889, it again became necessary to erect a larger church building. The cornerstone was laid June 16 and the 15th day of September, 1889, the new church was officially and formally dedicated. The first and dedicatory address was delivered by the Rev. Paul Merbitz of Beardstown, Ill., and the Rev. J. Drogemueler of Arenzville, Ill. Preached the afternoon sermon. By His grace God, has preserved this church unto this day.

In 1870, the members living in Scott county formed a congregation for themselves, and erected a church at Neelyville. This congregation had been served by the pastors of St. Paul's until 1884. In the spring of 1884 the Scott county congregation called the Rev. H. G. Schwagmeyer as its pastor, who accepted and faithfully ministered to this congregation for 22 years.

## Oil In Illinois Is Discussed At Rotary Club Meeting Friday

St. Louis Man Discusses Industry at Luncheon of Clubmen

H. K. O'Gara, of St. Louis, member of the oil committee of the St. Louis Chamber of Commerce spoke on "Oil In Illinois" at the weekly luncheon of the Jacksonville Rotary club Friday noon. He also showed a sound picture, "Oil from the Earth." The program was arranged by James Dunlap and Lloyd Hamilton, co-chairmen of the June program committee. Earle B. Miller, presided.

"It's mere 200 miles from here to Salem, Illinois," Mr. O'Gara declared. "The second largest oil field in the United States is that close to your own front door. I wonder if you have driven there recently to see one of the most spectacular sights of modern industry?"

"How many of you realize that Illinois, with a production now in excess of 425,000 barrels per day, has in 31 years jumped from 17th to third position among the oil producing states, having passed Oklahoma on March 17, 1940. How many of you know that more than \$650,000 daily is being poured into that area by the present oil activity?"

"Many people wonder why it took oil men so long to re-discover Illinois," Mr. O'Gara added. "The answer is simple. The oil-bearing beds of sand and limestone, of which there are six separated by impervious shales, are overlain by the Pennsylvanian formations which contain the coal deposits. The productive beds are not exposed except around the rim, and their folding is so mild that conditions favorable to accumulation of oil could not be determined by the usual method of surface geology. Although the six sand and limestone beds are probably continuous throughout the basin, only the great Salem field produces from as many as five of them. It was not until that remarkable geophysical instrument, the seismograph, was brought to Illinois in 1936, that Mother Nature's long-guarded secrets were disclosed. And this modern 'divining rod' has disclosed them in a big way."

Guests of the club Friday included: Lee Johnson, Tacoma, Wash., Bert Burdett and Edgar Martin, Jacksonville.

The Republicans met in Kansas City in 1928 and in 1932 were in Chicago again. Cleveland was the choice in 1936 and the convention of 1940 in Philadelphia will be the first conven- tion of the Republican party in the City of Brotherly Love since 1900 when McKinley was nominated for president and Theodore Roosevelt for vice president.

**COUPLE FROM WOODSON ATTEND SYNOD MEETING**  
Woodson, June 21.—Mr. and Mrs. S. G. Baxter attended the synod meeting held at Rock Island recently. From Rock Island and home, bus- iness, required the keeping of records over a period of 12 consecutive months between December 1, 1939 and April 1, 1940. More than 5,000 boys and girls in the United States submitted either farm or home records for the national event.

Not only were they required to show receipts and expenditures and opening and closing inventories, but they also had to analyze their accounts and suggest ways of improving the net farm income for family living.

The Wooding Singers (colored) will present a program of music at the Central Christian church here Monday evening at eight o'clock. The chorus will present negro spirituals, folk and work songs in a unique form. The program will be made up of young negro men and women who have finished high school, Normal school and various colleges.

They come to Jacksonville because of a broken date on their schedule. The public is invited to hear the chorus.

## Predicts Convention Republicans To Be Remarkable Meet

H. H. Bancroft, Reading Clerk Dean, Gives Ideas on Conclave at Philadelphia

Recalling some of his experiences in the role of reading clerk at Republican National conventions, Horace H. Bancroft, who left for Philadelphia, Friday, in an interview with a Journal-Courier representative, remarked that the 1940 convention of the Republican party gives promise of being one of the most remarkable gatherings of delegates and party leaders that has been held in a generation.

With a strained economic situation existing at home and an unemployment problem that has persisted throughout the entire period of the party in power there is added the desperate condition prevailing in Europe where a war fury is raging that is baffling in its immediate consequences. In addition there is the condition of the government of country after country collapsing under the onslaught of a central power in Europe that has proved unconquerable with a fighting force apparently capable of meeting every demand made upon it.

In the convention agenda the work of the resolutions committee must be completed before nomination of candidates for president and vice president. In the vernacular there is often heard the expression "party platforms are made to get in on, not to stand upon." Such jesting will find no place in the deliberations of either of the resolutions committees of the two great parties in their 1940 conventions. In many of the quadrennial campaigns the voter pays little attention to party principles, interest in the campaign centers almost entirely around the candidates.

There is every indication in these pre-convention days that the voter this year will not trifle with his choice but into the ballot box will go his conviction as a citizen of what ought to be the policy of the next administration and who is best qualified to carry into execution such policy. This is as it should be in a government of the people, by the people and for the people.

**Dean of Clerks**  
Reading clerk, who is probably dean of reading clerks, from his length of service, will be at his eighth national convention at Philadelphia, having first read in the 1912 convention held at Chicago. The 1912 convention, known as the Taft-Roosevelt conclave, was famous for its long roll call, in which state delegation after state delegation was polled at the time of a roll call. Polling a delegation means that the name of each individual delegate (and in the delegate's absence the name of his alternate) is called instead of the announcement by the chairman of the delegation of the vote of the state as a whole. At such times the balloting is colorful and spirited and tally clerks are on their toes to record the initial announcements and to watch for the challenge of a delegate demanding the polling of a delegation.

At the conclusion of a roll call, and before announcement of the result is made by the secretary, it is permissible for a delegate or an entire delegation to change votes. Here is a chance for confusion. The result of a ballot is never announced until two or more of the tally clerks are in agreement on their figures. In recent conventions adding machines are used in conjunction with individual tally sheets kept by tally clerks so that a further check may be kept on the roll call.

The 1912 convention met at Chicago and the Republican conventions of 1916 and 1920 met there. In 1924 Cleveland was the convention city. The Republicans met in Kansas City in 1928 and in 1932 were in Chicago again. Cleveland was the choice in 1936 and the convention of 1940 in Philadelphia will be the first conven- tion of the Republican party in the City of Brotherly Love since 1900 when McKinley was nominated for president and Theodore Roosevelt for vice president.

**COUPLE FROM WOODSON ATTEND SYNOD MEETING**  
Woodson, June 21.—Mr. and Mrs. S. G. Baxter attended the synod meeting held at Rock Island recently. From Rock Island and home, bus- iness, required the keeping of records over a period of 12 consecutive months between December 1, 1939 and April 1, 1940. More than 5,000 boys and girls in the United States submitted either farm or home records for the national event.

Not only were they required to show receipts and expenditures and opening and closing inventories, but they also had to analyze their accounts and suggest ways of improving the net farm income for family living.

The Wooding Singers (colored) will present a program of music at the Central Christian church here Monday evening at eight o'clock. The chorus will present negro spirituals, folk and work songs in a unique form. The program will be made up of young negro men and women who have finished high school, Normal school and various colleges.

They come to Jacksonville because of a broken date on their schedule. The public is invited to hear the chorus.

**CLASS PICNIC**  
Literberry, June 21.—The members of the Live Wire class of the Baptist church will hold their annual picnic Sunday at the home of John McGinnis.

**MARRIAGE LICENSE**  
Clifford Burrus, Arenzville; Miss Frances Maddox, Virginia.

## To Mark Birthdays

White Hall, June 21.—Mr. and Mrs. John Crabtree, who celebrated their sixtieth wedding anniversary April 29, by attending church on the day before at the Christian church in this city, will celebrate their birthdays Sunday, June 23, with a family dinner at their home on Ross street in White Hall. Mr. Crabtree was 65 on June 21. Mrs. Crabtree was 60 on June 18. Before their marriage Mrs. Crabtree was Miss Priscilla Thurmon, daughter of the late David and Ann Smith Thurmon. They have four children, Rev. F. M. Crabtree of Jacksonville, twin sons, Elbert J. Crabtree and Delbert H. Crabtree, barbers in White Hall, and Mrs. Mable Rubie of Pittsfield.

## Budget For School Year Adopted Last Night By Board

Funds To Finance Public School System Fixed In Resolution

A budget totaling \$231,855 with which to finance Jacksonville's public school system during the school year 1940-41 was adopted by the board of education at a special meeting Friday evening. The budget totals the same as last year, with a few slight changes in distribution of funds.

The budget includes \$5,000 marked for use in laying a new roof if such a project is approved. The board at its last regular meeting instructed an architectural firm to prepare plans and specifications.

The sum of \$173,359 is the estimated income for the educational fund, while \$58,555.26 is listed for the building fund.

The tax rate for the educational fund is .0135, and for the building fund .006.

Members of the board have studied the budget figures since the last regular meeting ten days ago when the budget was presented by the finance committee.

## Andrew Sauer, Jr., Wins 4-H Contest

Gets Fifty Dollar Award In National Meet At U. of Illinois

Winchester, 21.—It was reported recently by the 4-H club specialists of the University of Illinois, College of Agriculture, that Andrew L. (Junior) Sauer placed in the blue ribbon group of the sixth annual national farm accounting contest for which he received the \$50 award. Junior has placed in the blue ribbon group for the last three consecutive years receiving \$25 each for the first two years.

Bert North of Winchester placed in the White Ribbon group with an award of \$6.

The contest, designed to encourage 4-H club members to use better business methods and records as a basis of planning the farm and home business, required the keeping of records over a period of 12 consecutive months between December 1, 1939 and April 1, 1940. More than 5,000 boys
